KLove is a wonderful outlet to the community for Christian music. Its the only station that has contemporary Christian music in my area. The effect on the local community has been lives being saved. Testimonies are heard, communities announcments are adverstised. Up and coming concerts and special events are announced. The top 20 count down is only on Klove. Many new Christians who have never heard Christian music, Klove is an outlet for them to experence another form of culture. Which if limited is preventing our right to express freedom of religion. The LPFM stations will cost money. Compared to the listerners supported stations like Klove. Klove provides wholesome music for little ears. It provides teens postive encouraging music that have saved teens from sucicide. Testimonies are available. It provides homeless people hope. Minitories are also included in this ministry. Please don't silence the sounds of Christian music, there are already too many negative meseages being spread by other radio stations to the youth. They need positive messages. Klove provides that. Think about your son or daughter and what they listen to.

Thank you for caring enough to allow Klove to remain on the air in this area.

Jamie Roberts a solders wife. who's husband is fighting in Iraq.
